Director of Dental Hygiene

The Director of the Division of Dental Hygiene, Department of Periodontics and Oral Medicine provides leadership and oversight for three dental hygiene educational programs (on-campus and online): entry-level bachelor degree, degree-completion bachelor degree and master of science degree. In collaboration with the dental hygiene faculty, the director is responsible for curriculum (didactic and clinical) development and management, educational quality assessment and improvement, and accreditation. Other general responsibilities include quality control of patient care services, community outreach, student recruitment, advising and mentoring, and faculty development.
