

Mini-Residency in Dental Sleep Medicine

The University of Michigan School of Dentistry is offering a Mini-Residency in dental sleep medicine for licensed dentists, providing more than 100 hours of CE credit. The program will expand participants' understanding of dental sleep medicine, competence to treat sleep-related breathing disorders with custom oral appliance therapy and confidence working with patients, physicians, and medical insurance. This clinically-focused, evidence-based program is divided into two parts transpiring over a 1-year time period and includes pre-recorded, live in-person, and live streaming lectures and demonstrations, as well as guided self-study elements.

The Mini-Residency is accredited by the American Academy of Dental Sleep Medicine (AADSM).

Participants successfully completing the program will be eligible to take the board to become Diplomates of the American Board of Dental Sleep Medicine.

Course Schedule for 2023-2024

Mastery 1

1. Online pre-recorded lectures (June 1, 2023 – September 15, 2023)

Why Michigan?

- Expertise: Courses are taught by 10 U-M faculty representing the Schools of Medicine and Dentistry. Over 20 advanced education degrees and 12 board certifications are represented in this group, as well as directorships of 10 different advanced speciality and clinical programs. Faculty have won numerous awards for excellence in didactic and clinical teaching. Two faculty have been full-time private practitioners in Dental Sleep Medicine for more than 26 years.
- Limited class size.
- Held at the newly-renovated University of Michigan School of Dentistry.
- Clinical instruction will occur in the School's newly completed Advanced Clinical Education (ACE) facility. This facility consists of 20 semi-private dental chairs, providing hands-on opportunities to learn techniques for examinations, bite registration, digital and PVS impressions, fitting and adjusting of oral appliances and morning aligners and intra-oral photography.
- Didactic courses will occur in the newly remodeled classrooms adjacent to the ACE Clinic.
- Representatives from dental laboratories and suppliers that specialize in dental sleep medical products will share products and services.
- Course participants will visit the Sleep Disorder Clinic to see how polysomnography studies are performed and to have the opportunity to discuss sleep study details with a Registered Sleep Technologist.
- One of only two American Academy of Dental Sleep Medicine accredited Mastery Program providers. Accredited program attendees are eligible to earn AADSM Qualified Dentist designation and can apply for the ABDSM certification exam.

Our Faculty

Our courses are taught by ten University of Michigan faculty representing the Schools of Dentistry and Medicine. These are faculty heavily invested and successful in teaching and in clinical practices. They are the University of Michigan's leaders and experts in the topics they teach in the Mini-Residency.

Geoffrey E. Gerstner, DDS, MS, PhD, D.ABDSM

Director of the Mini-Residency

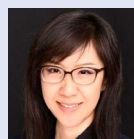

Neeraj Kaplish, MD

Clinical Associate Professor of neurology and sleep medicine

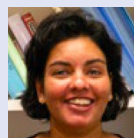

Elizabeth Hatfield, DDS

Director of the University of Michigan Orofacial Pain and TMD residency and specialty program

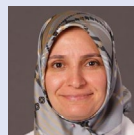

Ivy Wei, DDS, MS, PhD

Prosthodontist with a diverse background in dental medicine, oral biology, and biomaterials

Fauziya Hassan, MBBS, MS

Clinical Professor with specialty training in pediatric pulmonology, sleep medicine, and pediatrics

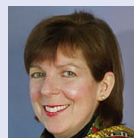

Berna Saglik, DDS, MS, D.ABDSM

Director of Dental Post Graduate Program in Prosthodontics

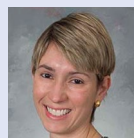

Earl K. Bogrow, DDS, D.ABDSM

Adjunct Clinical Assistant Professor in Cariology, Restorative Sciences & Endodontics and Biological and Materials Sciences & Prosthodontics

Regina Mackiewicz-Dailey, DMD, D.ABDSM

Adjunct Clinical Assistant Professor in Cariology, Restorative Sciences & Endodontics and Biological and Materials Sciences & Prosthodontics

Daniela Mendonca, DDS, MS, PhD, D.ABDSM

Adjunct Clinical Professor in the Department of Biological and Material Sciences & Prosthodontics

Gustavo Mendonca, DDS, MS, PhD

Adjunct Clinical Professor in the Department of Biological and Material Sciences & Prosthodontics
